Gentlemen:

I would like to have the latest issues of the following:

Short Wave Broadcasting Stations of The World According to Frequency

Long and Medium Wave Broadcasting Stations of The World According to Frequency

Broadcasting Stations of The World According to City and Country

I am particularly interested in the Short Wave Broadcast Stations booklet, for I like to keep my logs as up-to-date as possible. The latest issue I received was that of October 1, 1946. If another has been published since, I would appreciate it.

Thank you.

Yours truly,

/s/
